

THE EAST ASIAN REVIEW

Today

Edison's Voice.
His Useful Work.
A Scenarist's Chance.
Tired Of Nothing.

—By ARTHUR BRISBADE—
(Copyright, 1932)

Dr. HUTCHISON says he has heard the voice of Thomas Edison speaking from "the beyond" through a medium.
Dr. Hutchison, who was Mr. Edison's engineer for 16 years, says Mr. Edison sent him this message:
"Well, Hutch, I have had to revise my idea about life and death. I am on the other side of the river, but I don't know where I am going from here."
Dr. Hutchison recognized Edison's voice, and he says he may not be sure, but he is not sure that the medium is not a fake.
He says he has heard him on the other side of the river.
But those that know Edison for many years would have expected something more exciting and enlightening. Not one.

Pope Convoles Consistory For Monday, Mar. 13

VATICAN CITY, Jan. 21.—The Pope today convoked a consistory for Monday, March 13, 1933.
His primary purpose, the announcement stated, is to nominate three cardinals who will open the holy doors of St. Peter's basilica in addition to St. Peter at the inauguration of the holy year 1933.
According to tradition this nomination must be made at a full consistory.

Dead Man Tried, Convicted, Murder

LONDON, Jan. 21.—The coroner's inquest today heard the extraordinary statement of having a dead man tried and convicted of murder.
The coroner's jury at an inquest on the death of Walter Spatchett delivered a verdict that he was murdered by Samuel Furnace, who was arrested on Sunday after an 11-day hunt. The coroner committed suicide before he could be brought to trial. The police believed Furnace had killed the body with the idea of creating the impression that Furnace himself was dead.

Robbers Save One Victim

HELENA, Mont., Jan. 21.—Robbers who entered four service stations and a second-hand store here today and killed the proprietor of one of these places today, saved the life of a woman who was in the store at the time of the robbery. The woman was taken to a hospital and is recovering from her wounds.

Brounlee Not In Montreal To Talk Credit For Calgary

MONTREAL, Jan. 21.—Premier Brounlee of Alberta, who was expected to confer with the bank of Montreal officials today in an attempt to re-establish Calgary's credit, did not come to Montreal from Calgary. According to the Bank of Montreal, no word had been received from Premier Brounlee.

Exchange Rates On Pound And Dollar Quoted

Exchange rates at the close today were:
Pound sterling in Montreal, 1.32; U.S. dollar in Montreal, 1.14; Canadian dollar in Montreal, 1.14; Canadian dollar in New York, 87 1/2.

Edouard Herriot Outlines Baffling Results In China

Noted French Statesman Looks Far Into Future As He Reviews Events of Sino-Jap Conflagration.

By EDOUARD HERRIOT
Former Premier of France

PARIS, Jan. 21.—At the result of the Sino-Japanese war, the situation in the Far East has been particularly aggravated since the beginning of 1931.

JAPAN ISSUES GRAVE THREAT TO BITTER FOE

Chinese Given Due Warning for Invasion of Jehol Province

WASHINGTON, Jan. 21.—The Japanese minister of foreign affairs last night issued a warning to the government and people of China against unfortunate eventualities that may arise from what he described as an invasion of Jehol province by Chinese troops and a "patriotic anti-Japanese movement."

The minister spoke in the Japanese diet, and the text of his remarks was made public by the embassy here.

"I am convinced that in view of the stupor of Manchukuo and the universal adoration there accruing to all peoples of the world," he said, "the League of Nations and governments of the powers will eventually recognize the fairness and justice of the position."

He said that in view of the position of Manchukuo and the universal adoration there accruing to all peoples of the world, the League of Nations and governments of the powers will eventually recognize the fairness and justice of the position.

TODAY'S ODDEST NEWS

HORNET RABBIT SLAIN WITH AN EMBROIDERY

PETERSBURG, Neb. Jan. 21.—A rabbit killed by an ear of corn thrown by Henry Jodan has eight horns on its head, four of the horns measuring three inches long. Some think the horns will be a sign some great war is coming soon.

KEEPING PEACE IN FAMILY NO PROBLEM

LEEDS, Eng. Jan. 21.—John Robinson, celebrating his golden wedding anniversary, said that keeping peace in the family has been his greatest problem.

Per fifty years he has stayed home every night except one. "On that one night I got up with a sick friend," he explained.

He never seen the sea or a movie—no busy staying home nights.

ROBBERS SAVE ONE

HELENA, Mont., Jan. 21.—Robbers who entered four service stations and a second-hand store here today and killed the proprietor of one of these places today, saved the life of a woman who was in the store at the time of the robbery.

Brounlee Not In Montreal To Talk Credit For Calgary

MONTREAL, Jan. 21.—Premier Brounlee of Alberta, who was expected to confer with the bank of Montreal officials today in an attempt to re-establish Calgary's credit, did not come to Montreal from Calgary.

Makes Final Plea

Mrs. Winnie Ruth Judd to fighting to remain Arizona No. 881. Making her final plea to escape the gallows on Feb. 17 for the "trunk murders" of two women, Judd has asked for a pardon, commutation to life term or a new sentence for

second degree murder or manslaughter. The Arizona clemency board soon will begin hearings on her plea. These are heretofore unpublished details of her case.

At the very moment that memoranda were being exchanged in Geneva on Sino-Japanese differences, the military authorities of the Kuomintang army prohibited Marshal Chang Hsiang-shan from putting his Chinese troops in the province of Jehol, which the Japanese consider a part of the new state of Manchukuo.

In Europe these two events, especially the first, provoked considerable surprise.

How did the attack on Shanghai come about?

Immediately a series of more or less fantastic rumors, as happens in such cases, became current, including the throwing of a bomb on a Japanese

NOTED BANKER, MYSTERIOUS AS EVER, MARRIED

Montagu Norman Surprised by Quietly Wedded Miss Worthington

LONDON, Jan. 21.—Montagu Norman, Governor of the Bank of England, sprang a surprise this morning when his marriage to Miss Priscilla Worthington followed within a few hours the announcement of his engagement.

Just 17 minutes after the marriage ceremony was performed today he arrived in the Chelsea district registry office to be married to Miss Worthington.

Mr. Norman, who is 51, was married in a small ceremony in the Chelsea district registry office to Miss Priscilla Worthington, 34.

Mr. Norman, who is 51, was married in a small ceremony in the Chelsea district registry office to Miss Priscilla Worthington, 34.

Mr. Norman, who is 51, was married in a small ceremony in the Chelsea district registry office to Miss Priscilla Worthington, 34.

Wales Wins Rugby Game With England

WICKHAM, England, Jan. 21.—Wales triumphed England 7-3 in the first of the international rugby matches of the season, played here today before 60,000 people.

It was all England in the first half but the Welshmen led a terrific attack which bowled the English over in the last half.

Is Ours A Dishonest Dollar?

Is the Canadian dollar a honest dollar or a dishonest one?

Is it "sound money" that strengthens the nation and makes its prosperity secure?

Or is it a weapon used to make rich men richer and poor men poorer, that has plundered Western Canada bankrupt and enslaved her people?

What hope is there for western farmers to overthrow the mountain of inflated debt piled upon them by currency manipulation?

Read "The Passing Show" on the editorial page today, where these questions are discussed by J. S. Cooper.

DOCTOR RUSHED TO LADY BAILEY

CAPE TOWN, South Africa, Jan. 21.—Dr. A. B. Bailey, husband of Lady Bailey who was rescued Thursday after making a forced landing in South West Africa, has been taken to a hospital where he is said to be in a critical condition.

British Delegates Will Assemble In Washington, D.C.

Incoming and Outgoing Chiefs of Nation Decide on Terms—Ambassador Sir Ronald Lindsay Is Notified.

WASHINGTON, Jan. 21.—Diplomatic machinery was set in full motion today to bring Great Britain and United States together early in March for a new examination of war debts.

Powered by a joint agreement between President Herbert Hoover and British prime minister Ramsay MacDonald, the turning wheels of the machinery for settlement of war debts were set in motion today.

Stimulating a few hours after the incoming and outgoing chiefs of state of the United States had decided upon diplomatic channels as the avenue for an approach to the problem.

Henry L. Stimson of the state department, summoned to the White House by the president, met with ambassador Sir Ronald Lindsay, and informed him of the agreement reached yesterday afternoon by the two American leaders in a White House conference.

That was the first step in the new negotiations which may lead to a general review of debts owed by foreign nations to the United States.

Washington, Jan. 21.—The United States administration last night began negotiations with British delegates.

EARLY RETURN RESOURCES OF ALBERTA SEEN

Commission Soon Named to Fix Figure of Compensation

OTTAWA, Jan. 21.—Early return by the Dominion of natural resources to Saskatchewan and Alberta is being granted by the federal government.

The body, likely comprising three members, would be for the purpose of determining what compensation, if any, is due to the two provinces in regard to the alienation of natural resources prior to Saskatchewan and Alberta being granted their political autonomy in 1905.

Natural resources were returned to Manitoba, Saskatchewan and Alberta several years ago. In case of Manitoba, the Targuen commission decided that an amount was due to the province of about \$10,000,000 for alienation of natural resources before 1905.

A commission has not functioned yet on this question in regard to Saskatchewan and Alberta.

Prime Minister R. B. Bennett and Hon. T. A. Crerar, minister of interior, discussed this matter Friday in the course of conversations with Premier J. E. Brownlee of Alberta and Premier A. T. M. Anderson of Saskatchewan.

HINKLER GIVEN UP FOR DEAD

PARIS, Jan. 21.—Bert Hinkler, British ex-Atlantic flier who has been missing for 13 days between Italy, was given up for dead today, and two French airmen who were reported to be with him, were also given up for dead.

Mr. Hinkler, a successful sailor of the Sahara desert for Lady Mary Bailey, was reported missing.

It was all England in the first half but the Welshmen led a terrific attack which bowled the English over in the last half.

\$2 Not Enough For Thugs, He Borrows \$20

MINNEAPOLIS, Jan. 21.—Two dollars, all Mr. J. K. Kough had on him, was not enough for a pair of robbers, he said today.

He said he was a friend and borrowed \$20 and handed it over to the robbers.

Manhunt Ends With Arrest Of Laroche

CORNWALL, Ont. Jan. 21.—Runaway Laroche, who has been hunted over Ontario and Quebec for the past three months, was arrested today in a house in Cornwall.

He was arrested in a house in Cornwall, Ontario, after a three-month manhunt.

LEAGUE TURNS DOWN JAPAN'S REPLY TO PLAN

Conciliation of Sino-Japanese Dispute No Longer Possible

GENEVA, Jan. 21.—The League of Nations today rejected an unsatisfactory Japanese reply to a plan for conciliation of the Sino-Japanese dispute and agreed to proceed immediately with a plan for conciliation.

The members of the council agreed, no longer to provide a basis for the conciliation of the dispute, and to proceed with a plan for conciliation.

The members of the council agreed, no longer to provide a basis for the conciliation of the dispute, and to proceed with a plan for conciliation.

Crew Of Rudderless Schooner Taken Off

SAINT JOHN, N.S., Jan. 21.—All the crew of the rudderless schooner Dawn Wilkie were taken off safely today by a boat from Boston, according to a wireless telephone call received from a ship on the Atlantic by Mrs. M. A. Wilkie.

O.C. FOOTBALL

GLASGOW, Scotland, Jan. 21.—Rangers and the Vienna Sports Club today played a football match in an international soccer match here this afternoon.

Great interest was aroused in the match between the great Scottish football team and the Vienna Sports Club, who were the winners of the first round of the Scottish cup competition.

FARM STRIKE HOPES FADE AT MEETING

Official Support of Agrarians Withheld by the U.F.A.

CALGARY, Jan. 21.—The farm strike called by the United Farmers of Alberta today faded in an echo last night. Last hope of official support of the scheme disappeared as the union convention of the United Farmers of Alberta voted against it.

Instead, the delegates urged appointment of a wheat board with power to control the entire production and marketing of the Canadian wheat crop, north to south.

The delegates urged appointment of a wheat board with power to control the entire production and marketing of the Canadian wheat crop, north to south.

UP FOR DEAD

PARIS, Jan. 21.—Bert Hinkler, British ex-Atlantic flier who has been missing for 13 days between Italy, was given up for dead today, and two French airmen who were reported to be with him, were also given up for dead.

YOUR GAS COMPANY

—and its place in the Community

In the Fall of 1923 natural gas was first distributed in the City of Edmonton. Since then the mains have been extended and more and more people have been converting to its use. Before 1923 Edmonton was a coal city. Now it is known throughout Canada that a person living here can enjoy the advantages of natural gas. Edmonton has become a gas city.

What was the domestic fuel situation in Edmonton before 1923, and what is it now?

EDMONTON FORMERLY A COAL CITY

In 1923 coal was being extracted by several mines from beneath the City itself. In subsequent years the result has been shown in the subsidence of our highways, the sinking of the foundations of our homes and buildings, the breaking of walls, and in some cases the practical abandonment of the houses themselves. We were subjected to all sorts of vagaries in the quality of coal we had to burn and the prices which we had to pay—there was no uniformity of either. We took what we could get and we paid what we were asked—there was no alternative. Houses had to be frequently painted outside and cleaned and redecorated within. Soiled furniture coverings and draperies afforded the housewife plenty of unnecessary work. We had the unpleasant job of stoking furnaces, removing cinders and disposing of ashes so that the danger of fire would be decreased as much as possible. Edmonton was a coal city.

EDMONTON NOW A GAS CITY

Gas does not vary in quality. It is always the same. You pay for it in accordance with the amount you use. The Board of Public Utility Commissioners fixes the rates. In nine years there have been three reductions. There is no discrimination as between one con-

sumer and another. The Gas Company cannot raise the price one winter, lower it the next, and raise it again when it suits its fancy. Gas is clean. It is easily regulated, providing uniform heat at the temperature desired. It does not smudge the outside of the house, nor does it give the housewife unnecessary work inside. Chimneys no longer belch out smoke and soot. Edmonton is a clean city. Edmonton burns Natural Gas.

WINTER IN EDMONTON

The winter now has no terrors for those who heat with natural gas. They are no longer slaves of the furnace. It does not have to be visited late at night and early in the morning. No ashes are carried to the ash can in the back lane. If you are away, these burdens do not devolve on your wife or some other member of your household.

EDMONTON AND THE GAS COMPANY

The Gas industry contributes handsomely in taxes and in other ways to the civic life of the community. It supports a large number of families. They in turn pay their individual taxes and do their part in the upbuilding of the city. During every spring, summer and fall considerable additional employment is given. In connection with the maintenance and extension of our system since 1923 we have expended \$2,075,967.00.

THE GAS COMPANY

In no spirit of boastfulness, we believe we can fairly say that no other institution has contributed more to the comfort, convenience and contentment of our fellow citizens.

Second Winner In Rialto General Electric Radio Contest Named

GEN. ELECTRIC RADIOS REACH NEW HEIGHTS

Tests Show New Models Are Outstanding In Results

Reaching new heights in radio perfection, latest model General Electric radios are earning a wide reputation for realism, and as a result are growing in popularity with those members of the ever-increasing army of radio fans who have been educated to expect only the best from the General Electric radio.

Experiments have been spent in research and experimental work by the General Electric engineers, etc., and their work has brought the models of this company to the highest point of perfection.

In a series of tone tests with other famous makes—blindfold tests with

famous composers, orchestra and soloists—electric but in tests with the new radios and with the twin-push amplification systems the vote of reputable and distinguished audiences has run as high as 40 to 1 against nationally-known competitors. Today the company claims for its radio, the most perfect tone that radio research has achieved.

TREMENDOUS AMPLIFICATION

For the first time, portable radios with their tremendous amplification and ability to use as radio frequency amplifiers. They bring selectivity and sensitivity to a far greater point than former models. The first audio stage is push-pull here new radio tubes are employed, especially designed to drive the new tubes, designed to operate under the new system are used.

In all, seven major engineering advances, including twin-push, new radio tubes, new dial automatic volume control, automatic low tone compensation, new improved tone

equalizer, redolent loud-speaker and improved tone control, distinguish the new G. E. Radio 12-tube console model now on display in 16 DIFFERENT MODELS.

Of the entire range of 16 models (exclusive of the portable type) equipped with the new radio tubes, the 12-tube console, two of the 10-tube console models, and the eight-tube table battery and the eight-tube console battery models have the remarkable twin-push amplification system.

While public interest will center on the new radio models, all model-radio advances in engineering and cabinet construction.

FIRST ALBERTA COMPANY AT GREAT BEAR

North West Radium Minerals Plan Active Season

Making the first purely Alberta company to start operations in the seasonal Great Bear Lake mining field, North-West Radium Minerals Ltd., financed and operated by well known businessmen of this province, is planning an active season of development on the 36 claims which comprise its holdings of the company. The claims have already been proved to be highly mineralized and 22 of them being in the better section of Great Bear Lake and the remaining 14 in the Coeur d'Alene area where rich gold finds were reported just before freeze-up.

Specimens of ores from the claims sent to the Dominion government at Ottawa for analysis and reported on by the Division of Chemistry of the Department of Mines, were found to contain gold values running over \$25 to the ton, and silver values of from \$250 to \$2,500. Copper values were also shown, while the Uranium oxide content, from which radium is obtained, ran from \$200 to \$1,000 to the ton.

The claims on which development is planned were located early last year by Charles E. White and C. W. McKee, two Edmonton men who are also directors of the company. Associated with them is A. S. Maxwell, president of the company, who has been a member of the town council there for a number of years. He is a successful automobile agency operator in Edmonton and is well known throughout central and northern Alberta.

R. E. Bollen, vice president of the company, is also prominent in business circles on the Edmonton branch and has operated a hotel and store at Calgary for over 15 years. He was previously with the Yellowhead Coal company for a considerable period.

Another well known Albertan who is on the board of directors is Dr. E. Tiffin, who has been practicing in Alberta for 15 years following his return from overseas service with the Canadian Army Medical Corps, while Alfred Koch, L.L.B. secretary of the company, has been a resident of Alberta since 1899, most of this period in Edmonton, where his practice still resides. Following the war, in which he served for 4½ years, with the 10th Alberta Dragoons and the R.F.C. Mr. Koch graduated in law and business engaged in practice at Vermilion, Bowden and for the past three years at Edmonton.

LIMITED OFFER

Funds for the financing of the 1933 operations are being raised by placing a limited issue of the capital stock of the company on the market locally, and for the purpose the company has opened offices in the Moore Bldg. block which will be in charge of Clara Foster, another well known Albertan who works for some years in the automobile business in Edmonton.

Keen interest is being manifested in the affairs of the company by Edmonton business and professional men, not only on account of the rich showings made by the ore samples sent to Ottawa, but by reason of the high records of the officials of the company and their long connection with business circles in this part of the province.

Claims of the company comprise some 1800 acres of which 1125 acres

She Sets British Film Fans Ablaze

Sylvia Julliette Compton, one of the Georgia peaches, the likeness of whom appears here in a self spoken doppel from the southern states, Miss Compton left the American shores and set the English filmaholic ablaze in Great Britain for five years before returning to her native land to flame a star dust trail across the Hollywood firmament.

ZEALAND PRICES SHARPLY ASCEND

WELLINGTON, N.Z., Jan. 21. Prices of commodities, stock market shares and transportation rates have taken a marked rise since Thursday's exorbitant order raising the exchange rate of the New Zealand pound.

The inflation measure has been set in motion by the district where the Blenheim, Consolidated Mining and Smelting, B.C.A. and other big corporations are carrying on active mining and development programs.

definite repercussions. Quotations on the stock market bounded up to par and in some cases over par, while and iron values increased, local produce prices moved higher immediately, and the cost of living throughout the country and shipping freight rates in overseas and Australian ports advanced by 10 per cent.

RETIREES ON PENSION

OTTAWA, Jan. 21.—Announcement was made by the department of national defence that Colonel J. Drum, C.B.E., district medical officer of military district No. 11, Victoria, B.C., has been retired on pension. Colonel Drum is director general of the St. John Ambulance Association.

BEAN CONTEST POPULAR WITH RIALTO FANS

St. Albert Trail Resident Is Lucky Winner

With J. M. Holloway, residing on the St. Albert Trail, the only Rialto theatre patron to secure the correct number of peas in the glass case which has been standing in the lobby of the theatre all week, he was named as the winner of the second fall range general Electric radio given away by Manager William Long as a prize in the sensational weekly contest which in proving a big drawing card in Edmonton theatre circles, the winner's guess was 400.

The first radio set, given away during the initial week of the contest was won by J. Batters of 10708 8th Avenue, Edmonton.

Two more radios will be given away before the contest closes, and a new glass case with the peas and beans to be counted is already on display in the Rialto lobby, while other contestants at the theatre stand ready to give the special prize to the winner of every pattern of the theatre asking for them.

Counting of the beans is in the hands of Patrician and Johnson, chaffers in the sensational weekly Rialto patron is eligible to enter the contest without charge. These prizes and their relations are the only ones barred from the contest.

The name of the latest winner was announced from the stage of the Rialto on Friday night during the week end midnight frolic and the machine will be handed over on request. It has been on view in the merchandise lobby of the Rialto for the past week and has attracted wide attention.

That the contest is proving popular is shown by the number of estimates furnished, which they run into the thousands weekly, and indicates that the popularity of the contest will grow as it is carried on.

All the machines are the latest full range General Electric models with all the latest improvements from the General Electric laboratories.

AGITATOR GETS BARE \$10,000

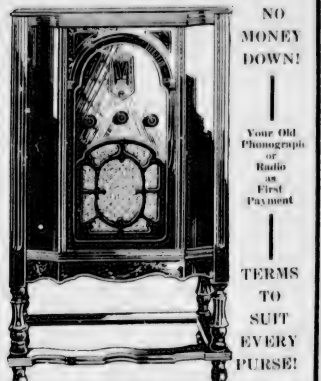

VANCOUVER, Jan. 21.—On an undertaking that he will not participate either directly or indirectly in any strike at Vancouver, the trial of the alleged agitator, Arthur H. Evans, was held in the sum of \$10,000 by Chief Justice Aulay Morrison, (British Columbia).

Evans told his Lordship he desired to get out on bail but his money

go to Princeton to prepare his dissertation authority, on which he was from against the charges of adultery—arrested during a minor's strike for letters for the distribution of same—there.

Jesus Forgiving Sin

"BRASS TACKS" ON THE SUNDAY SCHOOL LESSON

Text, Mark 2:1-12

The International Union, Jan. 21

Editor of The Congregationalist

Dear Sir:

Teaching: the carpenter gave his

his fellow townsmen, the fame of

this man was unexampled. It was

of religion spread very rapidly,

so that wherever he spoke crowds

gathered round him to hear him

teach. It was in the house of

his kinsman, or synagogue, those

who gathered for his teaching

who were told that the building

could not contain them, nor

could they even get in to hear

him.

This was the case in Capernaum,

where the events in our lesson

place. With the fame of the

teaching of Jesus had come the

his wonder-working power, and

the people were brought to him

to be healed. The important

thing about this lesson, however,

was not that Jesus healed the sick

by some spiritual influence or magic

power, but that he showed them

that the power was his own.

The healing of the disease and

the removal of physical defects, through

miracles, or spiritual power, is a

problem that deeply concerns the

many of men even in this scientific

age. It is a problem that has

been the subject of much thought

and discussion. It is a problem

that is of the greatest importance

to the human race. It is a

problem that is of the greatest

importance to the human race.

It is a problem that is of the

greatest importance to the human

race. It is a problem that is of

the greatest importance to the human

race. It is a problem that is of

the greatest importance to the human

race. It is a problem that is of

the greatest importance to the human

race. It is a problem that is of

the greatest importance to the human

CONGREGATION WESLEY HOLD FINE MEETING

Reports of Successful Session's Activities Received From Officials

A well attended meeting of members and adherents of the Wesleyan United Church was held on Wednesday evening last in the church school room.

The minister, Rev. A. C. Farrell, presided, and R. E. McLeod, secretary. Reports of the work for the past year were presented and officers for the new year elected.

In spite of an unusual number of removals from the city and the unfavorable economic conditions, reports of the church were given by the secretary, C. W. McDonald, and supported by the superintendent, E. C. Fisher. It was noted that a large constituency was being served, and appreciation of the work of the church was expressed by the large staff of teachers and officers who were evidenced by the increased attendance and support.

Almost \$400 was spent on papers and other supplies for the church school.

The large primary department is under the capable direction of Miss Josephine Pointer, and Miss Mary Suttell and George Kelly direct the girls' and boys' work respectively.

A fine library report was turned in by David H. Jones, secretary of the library. The library was stated to be very popular among the young people.

All the women's organizations, including the W. M. F. C., Y. W. C. A., and the W. M. F. C. Band and W. A. reported that interest had been well sustained throughout the year, and much was accomplished. Mrs. A. E. Cook, Miss F. Wood, Mrs. Carter and C. W. McDonald are the leaders respectively.

The new year, 1933, is opening with the new year. E. J. Williams, secretary of the new year, reported that the new year was opening with the new year.

Reference was made during the year of two members which were moved. Mrs. Zink and Mrs. D. G. Greeting were moved to the new year. Mrs. Zink and Mrs. D. G. Greeting were moved to the new year.

The review of the work of the church was given by the minister, Rev. A. C. Farrell. The review of the work of the church was given by the minister, Rev. A. C. Farrell.

The following are the officers of the church for the new year: Minister, Rev. A. C. Farrell; Secretary, R. E. McLeod; Treasurer, C. W. McDonald; and others.

At First Church of Christ, Science of Education, and at the Science of Education, the following is the list of the officers of the church for the new year.

The following ladies were instrumental in the work of the church for the new year: Mrs. Zink, Mrs. D. G. Greeting, Mrs. A. E. Cook, Mrs. F. Wood, Mrs. Carter, and C. W. McDonald.

The following ladies were instrumental in the work of the church for the new year: Mrs. Zink, Mrs. D. G. Greeting, Mrs. A. E. Cook, Mrs. F. Wood, Mrs. Carter, and C. W. McDonald.

The following ladies were instrumental in the work of the church for the new year: Mrs. Zink, Mrs. D. G. Greeting, Mrs. A. E. Cook, Mrs. F. Wood, Mrs. Carter, and C. W. McDonald.

The following ladies were instrumental in the work of the church for the new year: Mrs. Zink, Mrs. D. G. Greeting, Mrs. A. E. Cook, Mrs. F. Wood, Mrs. Carter, and C. W. McDonald.
